

Protecting your brands integrity.

Reduce the risk of identity theft and fraud through
secure destruction of your branded products.

Shredding & Recycling

Branded products, uniforms & clothing.

In business, your brand is incredibly important. It's what distinguishes you from your competitors, builds customer loyalty and creates trust.

So, the last thing you want is for it to be exploited (whether this be through counterfeit goods, faulty products being sold on the black market, or even employee impersonations).

These kinds of exploitation can quickly tarnish your company's reputation, weaken your brand and put you at serious risk of identity theft and fraud. So, to avoid this from happening, it's essential you treat branded items as confidential information and securely destroy them after use. But this isn't something you have to do alone – using industrial equipment, cross cut technology and a variety of shred size options, we'll work with you, taking equal responsibility, to destroy your items and keep your brand protected.

THE TYPES OF BRANDED ITEMS WE COLLECT AND SHRED

Examples include (but are not limited to):

					
Faulty, redundant and out-of-date products	ID cards and security passes	Uniforms, clothing and accessories	Counterfeit and confiscated goods	Sample prototypes	Branded goods

MAXIMUM SECURITY, MINIMUM FUSS

- * **24/7 security** - Our high-security shredding facilities are secure, alarmed and monitored by CCTV, 24 hours a day.
- * **Specialised vehicles** - Our vehicles are GPS tracked and designed to safely store your branded items in transit.
- * **Highly trained and vetted staff** - Our staff are BS7858 security cleared and carefully trained to conduct the sensitive nature of their role.
- * **Safe and robust storage solutions** - We'll provide you with secure and tamper-proof containers to store your branded items prior to collection. Alternatively, if your items are palletised we're able collect these by the lorry load and with no limit on quantity.
- * **End-to-end tracking** - We'll track your items from the moment we collect them to the moment they're destroyed, providing you with a secure and auditable service.
- * **Proof of compliance** - Once destroyed, you'll receive a Certificate of Destruction to confirm your information is no longer at risk of misuse and that you've disposed of your confidential materials compliantly.
- * **Responsible recycling** - After destroying your confidential information, we'll send the, now non-confidential, shredded items on for recycling or to create electricity, helping you to contribute towards a circular economy and your own sustainability goals.

GIVING YOU FLEXIBILITY AND CHOICE

When it comes to shredding, we like to give you as much flexibility and choice as we possibly can, while maintaining the highest levels of security at all times. This means, depending on the branded items you've got, we can often leave it up to you to decide where you'd like them to be shredded:

	On-site – We'll destroy your branded products on your own premises, using shredding machinery located on the vehicle.
	Off-site – We'll transport your branded items to our high-security shredding facility and destroy them there.

Our services:

Sustainable Recycling and Waste Services

Cans & metals

Cardboard

Plastics

Paper cups

Cartons

Hazardous waste

Non-recyclables

Wood

Non-confidential paper

WEEE
