# Carton recycling.

Used for storing milk, juices and soups, cartons are a staple packaging material within the food and drink industry.

But, despite appearances, they aren't made from paper alone. To keep their shape and avoid any leakages, they also have a plastic lining (and sometimes a little bit of foil if they're a long-life product). So, compositionally, cartons are pretty complex. But, thanks to advancements in technology, it's now possible to separate each of these materials and recycle them individually, making cartons 100% recyclable.

## AN ACE PARTNERSHIP

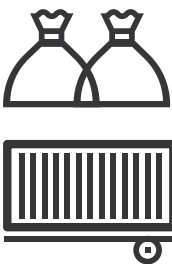

Alongside working with businesses to recycle their cartons, we are proud to be the nationwide bring bank collection service provider for The Alliance for Beverage Cartons and the Environment (ACE UK). Using specialist vacuum suction vehicles, we collect cartons from over 600 residential drop off points across the UK and transport them on to ACE's specialist carton recycling facility.

## THE BENEFITS FOR YOU

- Breathing new life into materials** – We'll turn your cartons straight back into new paper, plastic and aluminium-based products, helping you to contribute towards a circular economy, boost your recycling rates and meet your sustainability goals.
- No limits on quantity** – We're not fazed by quantity; we'll collect any amount of cartons from you.
- Total transparency** – From the moment we collect your cartons to the moment they're recycled into new products, we'll know where they are and what's happening to them, and so will you.
- Our commitment to quality** - Supporting businesses and local authorities to recycle products into quality raw materials is our area of expertise, so we can promise you a partnership based on getting the most out of your materials in the most sustainable way.
- Ease** – With flexible collection schedules designed to suit your business, and account management on-hand to support you, it couldn't be easier for you to recycle your cartons.

## EQUIPPING YOU WITH THE RIGHT STORAGE

To help you safely store your cartons prior to collection, we have a wide range of storage options for you to choose between, from polythene recycling bags for smaller amounts to RORO containers for larger quantities.

If you'd prefer, we can also collect any bulk quantity of cartons loose, as long as they're stored separately from other materials.

## Flexible collections to fit with you

### Pre-scheduled/Regular collections

Ideal for businesses who produce a steady stream of cartons, meaning your materials will be collected regularly without you having to think about organising anything.

### On-demand collections

Ideal for businesses who generate low volumes of cartons or have peaks and troughs through the year. We can simply collect these as and when you need.

# Our services:

## Sustainable Recycling and Waste Services

Cans & metals

Cardboard

Plastics

Paper cups

Cartons

Hazardous waste

Non-recyclables

Wood

Non-confidential paper

WEEE

Polystyrene

Glass

Office & warehouse clearances

## Confidential Shredding Services

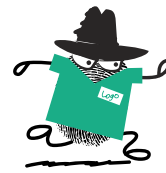

Archive clearances

Hard drives & media material

Confidential paper

Branded products, uniforms & clothing
