

Preserving woodlands & forests.

Our non-confidential paper recycling service

printwaste
Sustainable Recycling

Non-confidential paper recycling.

While, as a society, we're becoming more digital, paper remains a huge part of our lives, and is still widely used across many industries and in many workplaces.

So much so that, on average, 80% of an office's recycling consists of paper. So, what we do with this material once we're finished with it matters, especially when it's so intrinsically linked to the world's forests.

The good news is paper can be recycled straight back into new paper-based products up to 7 times, preventing the need to use raw materials (trees) and protecting the planet in the process. At Printwaste, our paper recycling service exists for this very reason, and we are dedicated to helping our customers fight back against deforestation and choose sustainable routes for their paper instead.

THE TYPES OF NON-CONFIDENTIAL PAPER WE COLLECT:

Examples include (but are not limited to):

Newspapers & magazines

Brochures, booklets and catalogues

Folders and envelopes

Junk mail, flyers and leaflets

Shredded paper

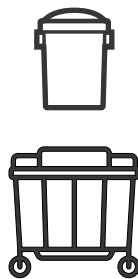

Did you know? If every person in the UK recycled just 10% more paper, we would save approximately 5 million trees each year!

THE BENEFITS FOR YOU

- Breathing new life into materials** – We'll turn your paper straight back into paper-based products, helping you to contribute towards a circular economy, boost your recycling rates and meet your sustainability goals.
- No limits on quantity** – We're not fazed by quantity; we'll collect anything from a single bag to an artic lorry load collection from desk side or loading bay.
- Money back** - Depending on the volume, material market and product quality of your paper, we can sometimes offer customer rebates and actually give you money back.
- Total transparency** – From the moment we collect your paper items to the moment they're recycled into new products, we'll know where they are and what's happening to them, and so will you.
- Our commitment to quality** - Supporting businesses to recycle products into quality raw materials is our area of expertise, so we can promise you a partnership based on getting the most out of your materials in the most sustainable way.

EQUIPPING YOU WITH THE RIGHT STORAGE

To look after your paper prior to collection, we have a wide range of storage options for you to choose between.

These vary in size and shape to ensure you get the right fit for both your paper output and the amount of space you have available – all of which will help determine the best collection frequency for your business.

Flexible collections to fit with you

Pre-scheduled/Regular collections

Ideal for businesses who produce a steady stream of non-confidential paper, meaning your materials will be collected regularly without you having to think about organising anything.

On-demand collections

Ideal for businesses who generate low volumes of non-confidential paper or have peaks and troughs through the year. We can simply collect these as and when you need.

Our services:

Sustainable Recycling and Waste Services

Cans & metals

Cardboard

Plastics

Paper cups

Cartons

Hazardous waste

Non-recyclables

Wood

Non-confidential paper

WEEE

Polystyrene

Glass

Office & warehouse clearances

Confidential Shredding Services

Archive clearances

Hard drives & media material

Confidential paper

Branded products, uniforms & clothing
