Sustainable Recycling

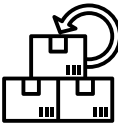

Office & warehouse clearance.

Whether you're relocating premises, upgrading your current equipment or downsizing, office and warehouse clearances can be inconvenient and time-consuming.

With the added pressure of doing the right thing by the environment and the law. To simplify this process for you, we'll take your clearance items off your hands, avoid you having to do any of the manual lifting, and find the most responsible and sustainable route for them. And for those relocating, our team is happy to organise transportation of your goods and fixtures to the new premises - meaning you barely need to lift a finger!

WHAT WE CLEAR

The simple answer is - everything. Examples include (but are not limited to):

 Office furniture	 Lighting	 Carpet tiles	 Packaging	 Non-recyclables
 Hazardous material	 Confidential information	 Small machinery	 Shelving and racks	 Packaging equipment
 Customer goods returned	 Electrical equipment	 Catering equipment	 White goods	 Pallets & containers

HOW WE CLEAR : OUR 'FRESH' APPROACH

- * **Flexible** – We'll provide you with flexible collection times to slot in easily with your own timings and tight project schedules.
- * **Reliable** – Our highly trained and BS7858 security vetted team will arrive on time, work efficiently and make sure your space is both clear and tidy upon completion.
- * **Environment** – We'll always look for the most ethical and eco-friendly home for your items, and will reuse and recycle as much as possible. Where we can't, we'll turn your items into renewable energy (electricity).
- * **Scalable** – We can handle projects of all sizes, from a few items to full van loads, and, if your business operates across multiple sites, we can clear all of these for you too.
- * **Heavy lifting** – We'll take the weight off your shoulders, literally. Our team of experts will provide the equipment to do all the manual lifting, so you don't have to.

FOLLOW OUR SIX SIMPLE STEPS

- 1 Request a quote online or by phone and we'll arrange a site survey at a time that suits you
- 2 A member of our team will then undertake a free of charge site survey to assess the scale and specific requirements of the job
- 3 Full details of the work required will be provided in a written quote
- 4 Once agreed and with your collection booked in, we'll arrive on-site at the agreed time to clear your space for you
- 5 You'll receive waste transfer notes and, for confidential items, a Certificate of Destruction once they've been safely destroyed
- 6 We'll send your items on for reuse, recycling or, if not possible, turn them into electricity

Our services:

Sustainable Recycling and Waste Services

Cans & metals

Cardboard

Plastics

Paper cups

Cartons

Hazardous waste

Non-recyclables

Wood

Non-confidential paper

WEEE

Polystyrene
