Sustainable Recycling

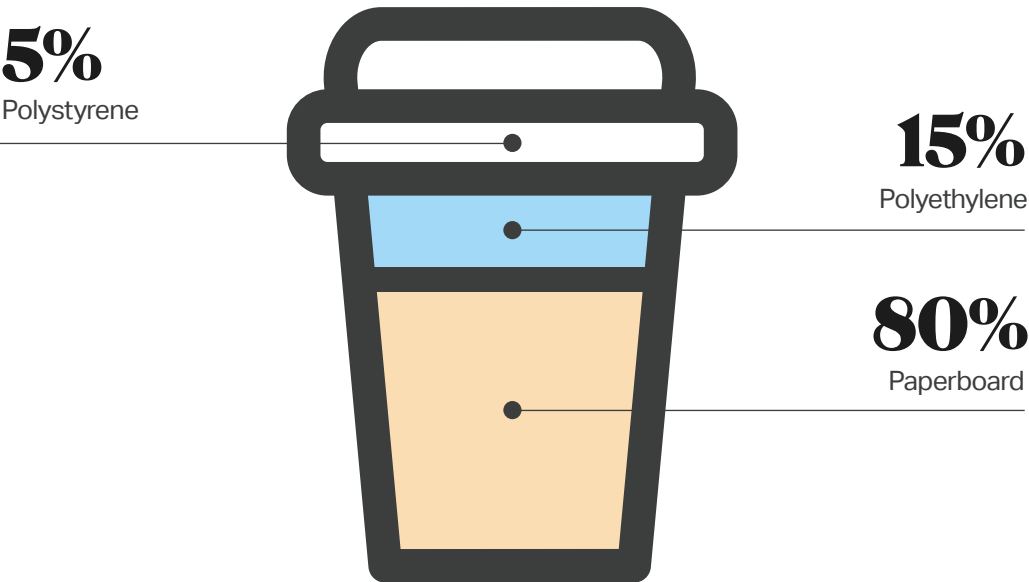

Paper cups recycling.

From offices and universities to hospitals and leisure centres, millions of paper coffee cups are used and disposed of every day in the UK.

So, it's unsurprising that, across a whole year, a whopping 2.5 billion are thrown away. Unfortunately, out of this number, only 1% are currently recycled. This is because disposable cups have a polyethylene film around them to keep the cup waterproof and resistant to heat.

Previously, it was considered almost impossible to separate the polyethylene film from the paper, so the cups were deemed non-recyclable. But now, due to advancements in technology, things have changed, and, at Printwaste, we're proud to be able to offer a coffee cup recycling service to all of our customers.

WHAT MAKES UP A PAPER COFFEE CUP?

Did you know? According to the British Coffee Association, altogether, in the UK, we drink approximately 95 million cups of coffee a day!

THE BENEFITS FOR YOU

- * **Breathing new life into materials** – We'll turn your coffee cups straight back into new paper and plastic products, helping you to boost your recycling rates as well as contribute towards a circular economy.
- * **No limits on quantity** – We're not fazed by quantity; we'll collect any amount of cups, so if you're big coffee drinkers, that's fine with us.
- * **Total transparency** – From the moment we collect your cups to the moment they're recycled into new products, we'll know where they are and what's happening to them, and so will you.
- * **Our commitment to quality** - Supporting businesses to recycle products into quality raw materials is our area of expertise, so we can promise you a partnership based on getting the most out of your materials in the most sustainable way.

EQUIPPING YOU WITH THE RIGHT STORAGE

To dispose of your coffee cups sustainably, it's important to have the right storage solutions in place. This is why, internally, we provide our customers with bins that have been specifically designed for disposable cups, containing separate sections for lids, stirrers, pouring off excess liquid and stacking cups.

Likewise, externally, we can supply larger storage options, such as our 1100L bins and RORO containers, to suit larger quantities of cups. Whichever option you go for, we provide waterproof bags to line the office bins and prevent any liquid leakage, as well as labels for all containers to clearly explain to staff and customers what to do with their cups once they're finished with them.

Flexible collections to fit with you

Pre-scheduled/Regular collections

Ideal for businesses who produce a steady stream of paper cups, meaning your materials will be collected regularly without you having to think about organising anything.

On-demand collections

Ideal for businesses who generate low volumes of paper cups or have peaks and troughs through the year. We can simply collect these as and when you need.

Our services:

Sustainable Recycling and Waste Services

Cans & metals

Cardboard

Plastics

Paper cups

Cartons

Hazardous waste

Non-recyclables

Wood

Non-confidential paper

WEEE

Polystyrene

Glass

Office & warehouse clearances

Confidential Shredding Services

Archive clearances

Hard drives & media material

Confidential paper

Branded products, uniforms & clothing
