

Giving wood a new lease of life.

Our wood recycling service

printwaste
Sustainable Recycling

Wood recycling.

Because of its versatility as a raw material, wood is used to make a huge variety of products, from furniture, flooring and fencing to musical instruments and cooking utensils.

But this popularity has come at a cost; our forests are depleting, causing all sorts of problems for wildlife and the planet as a whole. So, we need to find a more sustainable way of manufacturing wooden products, and fast. The answer? Recycling. By utilising our wood recycling service, we can help you give your wood a new lease of life through our safe and sustainable disposal options.

THE TYPES OF WOOD WE COLLECT

Grade-A wood.

For example:

Solid softwood and hardwood

Pallets

Untreated wooden products

Wooden packaging

Grade-C wood.

For example:

Chipboard and plywood

Sterling wood

Fencing products

Flatpack furniture

Did you know?

According to the Wood Recyclers Association, 4.5 million tonnes of waste wood is generated every year in the UK!

THE BENEFITS FOR YOU

- 

Breathing new life into materials

– We'll turn your wooden items straight back into wood-based products or, where not possible, biomass fuel, helping you to contribute towards a circular economy, boost your recycling rates and meet your sustainability goals.
- 

No limits on quantity

– We're not fazed by quantity; we'll collect anything from a handful of loose pallets to a large container full of wood, and we'll do all the manual removal work on top.
- 

Total transparency

– From the moment we collect your wooden items to the moment they're recycled into new products, we'll know where they are and what's happening to them, and so will you.
- 

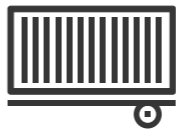

Our commitment to quality

– Supporting businesses to recycle products into quality raw materials is our area of expertise, so we can promise you a partnership based on getting the most out of your materials in the most sustainable way.

EQUIPPING YOU WITH THE RIGHT STORAGE

Left out, or simply discarded, wooden items can present a significant fire risk, and take up a lot of space. So, to keep everyone safe and get the most out of this material, it's essential you have the right storage solutions in place.

To ensure this is the case, we have a wide range of containers for you to choose between. All of these have been carefully designed to keep your wood safe, while also giving you options when it comes to size and shape – meaning you can pick a container that suits your business, knowing it's equally environmentally-sound.

Flexible collections to fit with you

Pre-scheduled/Regular collections

Ideal for businesses who produce a steady stream of wood recycling, meaning your materials will be collected regularly without you having to think about organising anything.

On-demand collections

Ideal for businesses who generate low volumes of wood recycling or have peaks and troughs through the year. We can simply collect these as and when you need.

Our services:

Sustainable Recycling and Waste Services

Cans & metals

Cardboard

Plastics

Paper cups

Cartons

Hazardous waste

Non-recyclables

Wood

Non-confidential paper

WEEE

Polystyrene

Glass

Office & warehouse clearances

Confidential Shredding Services

Archive clearances

Hard drives & media material

Confidential paper

Branded products, uniforms & clothing
